TECHNICAL SKILLS

Languages	Python, C, C++, SQL, HTML/CSS, JavaScript
Tools & Platforms	MySQL, Tableau, Power BI, Excel, Jupyter, Google Colab, AWS
Libraries	Matplotlib, Pandas, NumPy, Scikit-Learn, TensorFlow, Seaborn
Domain Skills	Data Cleaning, EDA, Statistical Analysis, Machine Learning, Data Visualization
Core Competencies	Problem Solving, Analytical & Critical Thinking, Teamwork, Communication

PROJECTS

SmartCollegeBot: NLP & ML-Based College Assistant Chatbot [GitHub] Mar’ 2026 – Jun’ 2026

Python · NLP · TF-IDF · Naive Bayes · Streamlit

- Developed an NLP-powered college assistant chatbot using Python, TF-IDF, and Naïve Bayes, supporting 15+ user intents and achieving 90%+ intent classification accuracy through tokenization, stop-word removal, and stemming.
- Engineered a Streamlit web application with secure login/signup, chat history, and real-time conversational support, enabling users to access information on admissions, fees, hostels, placements, and other campus services.
- Implemented a modular architecture separating the ML model, response engine, and UI, improving scalability, maintainability, and simplifying future integration of new features and intents.

Exploratory Data Analysis on Census 2011 [GitHub] Aug’ 2025 – Dec’ 2025

Python · Pandas · Data Visualization · Statistical Analysis

- Analyzed the Census 2011 India dataset (20,000+ records) using Python, Pandas, and NumPy to uncover insights into literacy rates, gender distribution, workforce participation, and demographic trends.
- Performed data cleaning, missing-value treatment, feature transformation, and exploratory data analysis (EDA) to identify socio-economic patterns and generate actionable insights.
- Developed interactive visualizations using Matplotlib and Seaborn to highlight regional disparities, demographic correlations, and state-wise trends, enabling effective data-driven interpretation.

BlinkIT Sales Analysis Dashboard [GitHub] Jul’ 2025

Power BI · DAX · Power Query · Data Modeling

- Developed an interactive Power BI dashboard to analyze BlinkIT grocery sales, tracking key business KPIs including Total Sales, Average Sales, Number of Items Sold, and Customer Ratings.
- Built dynamic visualizations using DAX measures, Power Query, KPI cards, bar charts, donut charts, line charts, and slicers to evaluate outlet performance, product categories, and sales trends.
- Performed data cleaning, transformation, and data modeling to generate actionable business insights, enabling efficient decision-making through interactive and user-friendly reports.

CERTIFICATIONS

OCI 2025 Certified Data Science Professional — Oracle	Oct’ 2025
Cloud Computing AWS — AWS	Jul’ 2025
BCG X GenAI Job Simulation — BCG X	Jun’ 2025
iHUB DivyaSampark — IIT Roorkee	Sep’ 2024

ACHIEVEMENTS

- Contributor — Open Source Connect India 2025:** Selected as a Contributor for one of India’s largest collaborative open-source initiatives; contributed to real-world projects with mentors and developers nationwide. Sep’ 2025
- Contributor — GirlScript Summer of Code 2025 (GSSoC’25):** Selected as a Contributor to a nationwide open-source program; collaborated on impactful repositories and open-source workflows. Oct’ 2025

EDUCATION

Lovely Professional University	Aug’ 2023 – Present
B.Tech in Computer Science & Engineering – CGPA: 7.59	Punjab, India
Kendriya Vidyalaya BEG	Apr’ 2022 – May’ 2023
Intermediate – 69%	Pune, Maharashtra
Army Public School Dighi	Apr’ 2020 – Mar’ 2021
Matriculation – 83.6%	Pune, Maharashtra
